Dear Hiring Manager,

I am writing to express my interest in the Business Process & Technology Intern position at BlueCross BlueShield of South Carolina. As a Computer Information Systems major with a business concentration at the University of South Carolina, I am eager to apply my analytical, technical, and operational skills in a professional healthcare environment focused on process improvement and innovation.

Through my experience at First Citizens Bank, I processed 150+ daily financial transactions while maintaining strict regulatory compliance and conducting cash audits to ensure reporting accuracy and operational integrity. This role strengthened my attention to detail, understanding of internal controls, and ability to work efficiently within structured business processes. Additionally, as an Assistant Manager at Hudson Liquor, I managed inventory systems, performed profit margin analysis, and supported data-driven operational decisions.

follow up w/ what this did for you that they'll be interested in!

Beyond my work experience, I am actively involved in Kappa Theta Pi, where I contribute to a university systems improvement initiative aimed at enhancing operational workflows for a campus resource center. This experience has strengthened my ability to connect business needs with technology solutions, a skill that directly aligns with the mission of the Business Process & Technology unit.

good!

I am enthusiastic about the opportunity to contribute to departmental research, reporting, and process improvement initiatives while gaining hands-on experience within BlueCross BlueShield. Thank you for your time and consideration. I look forward to the opportunity to further discuss how I can add value to your team.

Sincerely,
Mahi Patel

nicely done!
